

Skill Finder Fact Sheet

Current as of November 2020

With hundreds of online courses, the platform provides an opportunity for every Australian to level-up their knowledge with transferable and useful microskills.

A centralised marketplace, Skill Finder is powered by the world's top technology platforms and software providers.

About Skill Finder

Skill Finder is all about giving you simple, instant access to new skills in growth sectors, whether you're looking to advance in your current industry or pivot your career entirely. The courses available in Skill Finder are also ideal for creating pathways to accredited qualifications.

How much does it cost?

The Skill Finder marketplace can help you discover a range of free, online courses that will help you build those microskills as you work towards gaining a new position, advancing your career, or simply expanding your capabilities to get you where you need to go.

Who are the course partners?

From the most influential and knowledgeable companies across Australia, to globally-recognised brands, their partners know the value of digital skills for a future where anything is possible. Skill Finder is backed by their knowledge and passion for creating a platform where Australians can connect with industry experts and build on their knowledge to lead the future. From brands such as Canva, IBM, Xero and more.
